Conference on a Cruise

**Oct. 20-25, 2016
Italy - Spain - France**

PROGRAM

5th Mediterranean Poultry Summit

20-25 October 2016
Italy – Spain - France

The Scientific Program

Thursday, October 20th (Port of Savona)

From	To	Description
16h30		Departure from the Port of Savona
18h00	20h00	Welcome cocktail
19h30	24h00	Dinner and show

Friday, October 21st (Civitavecchia, Port of Rome)

From	To	Description	
15h30	17h00	Registration	
17h00	17h30	Opening Ceremony	
17h30	19h15	Session I	Economic Studies on the Poultry Industry in the Med Region
		Session Chairperson	M. Cassandro
17h30	18h15	Plenary Session I	Slot: K1
		Slot	Corresp. Author
		K1-01	Peter Vanhorne
			Perspective for the Poultry Sector in Mediterranean Region
		K1-02	Jihad Douglas
			Future of Turkey Industry in the Mediterranean Region
18h15	19h15	Oral Session I	Slot: O1 Poultry Nutrition 1
		Slot	Corresp. Author
		O1-01	Silvia Peris
			Effect of Adding a Protease in Broiler Diets with 500 or 1000 FTUs of Phytase and a NSP's blend; or in Diets with a Mannanase Added to Basal Diets Containing 1000 FTUs of Phytase
		O1-02	Okasha khaled
			Effect of Soybean Processing Conditions and Enzyme Supplementation on Growth Performance of Broilers Fed Corn/Soy-Based Diets
		O1-03	Kermanshahi Hassan
			Effect of Acidifiers and Saturated Fat Sources on Performance, Carcass Characteristic and Nutrient Digestibility of Broiler Chickens
		O1-05	Zaghari Mojtaba
			Estimation of Metabolisable Energy Equivalency of Bacillus Subtilis Spore for Male Broiler Chicks
19h30	24h00	Dinner and show	

Saturday, October 22nd (Cruising between from Civitavecchia to Barcelona)

Slot	Corresp.	Author	Title
09h00	10h30	Session II	Poultry Nutrition 2
		Session Chairperson	N. Usayran
09h00	09h45	Plenary Session II	Slot: K2
		Slot	Corresp. Author
			Title
	K2-01	Nuhad Dagher	Availability, Quality and Utilization of Oil Seed Meals produced in the MENA Region
	K2-02	Farran Mohamad T.	Recent Research on Selected Middle East Feedstuffs for Poultry
09h45	10h45	Oral Session II	Slot: O2
	O2-01	Silvia Peris	Dose Response of Organic Zn Chelated with 2-hydroxy-4-methylthio Butanoic Acid (HMTBA) on Performance, Carcass Quality, Gut Health, and Immunology of Male Broilers
	O2-02	Hamdi Manel	Effects of Source and Level of Copper on the Performance and Organs Copper Stores in Broiler Chickens
	O2-03	Abdollahi M. Reza	Separate Calcium Feeding and its Interaction with Phytase in Broilers
	O2-04	Mojtaba Zaghari	Effect of E. coli-derived 6-Phytase on Zinc Requirement of Obese Broiler Breeders
10h45	11h00	 15 Min. Coffee Break
11h00	13h00	Session III	Poultry Nutrition 3
		Session Chairperson	H. Al-Khalifa
11h00	12h00	Plenary Session III	Slot: K3
	K3-01	Yves Nys	Adapting Trace Element's Nutrition of Birds for Optimizing Environment and Poultry Product Quality
	K3-02	Franco Calini	Phosphorus Nutrition in Poultry: Past Present and Future
	K3-03	Weber Gilbert M.	Optimum Vitamin Nutrition for Better Health and Performance of Poultry
12h00	13h00	Oral Session III	Slot: O3
	O3-01	Achille Schiavone	Apparent Metabolizable Energy Evaluation of Insect Meals for Poultry Diets
	O3-02	Ahammed Musabbir	Effects of Dietary Grape Pomaces (Vitisvinifera) Supplementation on the Performance, Total Tract Nutrient Utilization, Blood Profile and Meat Quality of Broilers
	O3-03	Laura Gasco	Growth and Slaughter Performance of Broiler Chickens Fed Diets Formulated with Increasing Inclusion Level of Tenebrio Molitor Meal

	O3-04	Eray Aktug	The Effect of Dietary Supplementation of Vitex agnus-castus and Vitamin Combinations on Performance and Carcass Traits in Heat Stressed Broilers
13h00	14h00	 Lunch break
14h00	16h00	Session IV	PreBiotics - Probiotics / Gut Health
		Session Chairperson	R. Akbay
14h00	15h00	Plenary Session IV	Slot: K4
		Slot	Corresp. Author
		Author	Title
	K4-01	Sifri Mamduh	Interactions of Nutrients and Feed Additives and Their Impact on Gut Health
	K4-02	Silva Edir Nepomuceno	New Advances on Feed Additives (Probiotics and Prebiotics) to Replace Antibiotics as Growth Promoters
	K4-03	Gonzalo Matteos	Effects of Supplemental Sources of Fiber on the Development of the Gastrointestinal Tract and Growth in Broilers
15h00	16h00	Oral Session IV	Slot: O4
	O4-01	Gert Coertze	Improving Gut Health and Performance of Broilers by Adding Bacillus subtilis to the Diet of Broilers
	O4-02	Rahman Abdur	Effect of Dietary Supplementation of Kefir on Body Measurements, Giblet Weight and Gut Morphology in Geese.
	O4-03	Sarzamin Khan	Efficacy of a Local Sodium Bentonite Enriched Clay as Mycotoxin Binder in Laying Birds
	O4-04	Soudabeh Moradi	The Use of Different Pellet Binders to Improve Physical Pellet Quality, Performance and Total Tract Apparent Nutrient Retention in Broiler Starters
16h00	16h30	 Coffee break
16h30	18h30	Session V	Environment / Genetics interaction
		Session Chairperson	R. Mulder
16h30	17h15	Plenary Session V	Slot: K5
	K5-01	Cahaner Avigdor	Genotype-by-Environment Interaction: Adaptation of Broilers to Hot Climate
	K5-02	Yalcin Servet	Acclimatization to High and Low Temperatures
17h15	18h30	Oral Session V	Slot: O5
	O5-01	Cassandro Martino	Assessing Genetic Variability of Some Mediterranean Local Chicken Breeds
	O5-02	Hanan Al-Khalaifa	Status of Indigenous Chickens in Kuwait, Saudi Arabia, and Egypt

Slot	Corresp. Author	Title
O5-03	Özkan Sezen	The Effect of Lighted Incubation on Body Temperature, Tonic Immobility Duration, and Growth of Broiler Chicks Reared at Continuous or 16L:8D Post-hatch Lighting
O5-04	Ergin Ozturk	Effects of In-ovo Injection of Propolis Ethanol Extract to the Hatching Eggs and its Addition to Offspring Diets at Post-Hatching Period on the Immune System, Intestinal Microflora and Fattening Performance
O5-05	Ali Sayda	Effect of Using Different Pre-storage Warming Times on Hatchability of White Hisex Breeders' Eggs
O5-06	Hazim Al-Daraji	Fertility Criteria in Female Ostriches (<i>Struthio camelus</i>) after Artificial Insemination by Using Three Methods of Semen Collection
18h30	19h00	Poster Session I
		Session Chairperson H. Khouri
P1-01	Arda Sozcu	Determination of Alterations in Carcass and Breast Meat Yield of Male and Female Broilers in Various Slaughter Weight Categories
P1-02	Zaghari Mojtaba	Creatine Precursor Can Improve Sperm Quality in Rooster
P1-03	Ipek Aydın	Utilization of Yolk Sac during Holding Time and First Week Broiler Performance in Newly-Hatched Chick with and without Access to Feed
P1-04	Mousavi Seyed Naser	Effects of a Native Bacillus Based Probiotic on Intestinal pH and Cecal Microbial Population
P1-05	Roger Mazloum	Comparison of Husbandry and Egg Quality of Conventional and Free Range Commercial Layers
P1-06	Mehdaoui Abderrahmane	Breeding Characterization of Local Poultry in the Region of Aures
P1-07	Fatma Yenilmez	Poultry Production in Turkey
P1-08	Fatma Yenilmez	Broiler Carcass Quality in Free-range System
P1-09	Sher Ali	Determination of Quality Changes during Multiple Freeze Thaw Cycles in Chicken Breast Muscle

Slot	Corresp. Author	Title
P1-10	Abou Khadiga Galal	Genetic Evaluation of Monthly Egg Production Traits in Japanese Quail Using Random Regression Models
P1-11	Abdulateef Salwan	Effects of Different Sounds on Feeding Behavior and Physiological Traits in Broiler Chickens
P1-12	Esra Karaduman	The Effect of In-Ovo Injection of L-Thyroxine and Triiodothyronine in Broiler Breeder Eggs on Hatchability and Broiler Performance.

19h00 20h00 Private Parallel Session

19h30 24h00 Dinner and show

Sunday, October 23rd (Port of Barcelona)

From	To	Description
08h30	10h00	Session VI Poultry Housing Session Chairperson C. Garcés-Narro
08h30	08h50	Plenary Session VI Slot: K6
K6-01		Freiji Musa Advancement of Biosecurity with Appropriate Poultry House Structure and Innovative Ventilation
08h50	09h50	Oral Session VI Slot: O6
Slot	Corresp. Author	Title
06-01	Helder Maertens	Analysis of the Hygienogram Information and Hygienogram Scores Obtained after Cleaning and Disinfection of Poultry Houses in Flanders during the Period 2007 to 2014
06-02	Nathalie Sleenckx	What is the potential of an Integrated Poultry Red Mite treatment of predatory mites and locally used acaricides in practice?
06-03	Baylan Mikail	Effects of Propolis and Thyme Essential Oil as a Bio-Fumigants on Microbiological Load of Hatching Eggs and Incubation Performance Parameters
06-04	Anna Xexaki	Current Practices in Greek Broiler Farms as Related to the Technical Status of the Establishments and Equipment
09h50	10h10Coffee Break

10h10	12h00	Session VII	Poultry Health 1
		Session Chairperson	E. Prukner-Radovic
10h10	10h30	Plenary Session VII	Slot: K7
	K7-01	Hafez Hafez Mohamed	Avian Influenza in Poultry: A Never Ending Problem?
10h30	12h00	Oral Session VII	Slot: O7
	Slot	Corresp. Author	Title
	O7-01	Husam Bakri	Survey of Mycoplasma synoviae Prevalence in the Middle East and North Africa Area
	O7-02	Evangelia Sossidou	Risk Factors for Campylobacter spp. Contamination in Greek Broiler Flocks: Preliminary Results
	O7-03	Tarerk Khenenou	Morpho-histological Study of the Bursa of Fabricius of Broiler Chickens throughout Gumboro Disease
	O7-04	Nagwa Shalaby	Causes of Vaccination Failure in Poultry in Egypt
	O7-05	Hanan Al-Khalaifa	Effect of Polyunsaturated Fatty Acids on Mitogen-Mediated Cell Proliferation in Chickens
	O7-06	Tsiouris Vasileios	The Use of Whey in Broiler Industry: a 'Natural' Way to Prevent Campylobacteriosis and Improve Performance?
12h00	13h00Lunch break	
13h00	16h00	Sponsored Parallel Session	
13h00	18h00	Barcelona Visit	
18h00	19h30	Poster Session II	Slot: P2 Poultry Nutrition
		Session Chairperson	M. Farran
	Slot	Corresp. Author	Title
	P2-01	Alsaffar Abdulameer	The Effect of Temperature on the Response of Laying Hens and Growing Broiler Chickens to Varying Dietary Levels of Tryptophan
	P2-02	Vasil Pirgozliev	The Effect of Exogenous Phytase on Dietary Energy and Nutrient Availability when Fed to Laying Hens
	P2-03	Vasil Pirgozliev	Mixture of Exogenous Enzymes Enhances Dietary Energy and Nutrient Availability in Wheat Based Diets for Broilers
	P2-04	Farhad Foroudi	Efficacy of an Oregano-based feed supplement on Performance and Intestinal Morphology of Broiler Chicks

Slot	Corresp. Author	Title
P2-05	Mousavi Seyed Naser	Investigation on the Partial Replacement of Arginine by Guanidinoacetic Acid in Turkey Diets
P2-06	Amir Attar	The Effect of Steam or Dry Conditioning and Sodium Bentonite Levels on Pellet Quality, Performance and Digestive Tract Development of Growing Broilers Fed Corn-based Diet
P2-07	Kermanshahi Hassan	Effect of Emulsifiers and Saturated Fats on Growth Performance, Carcass Characteristic and Nutrient Digestibility of Broiler Chickens
P2-08	Ljiljana Kostadinovic	Synergistic Effects of Dietary Supplementation of a Garlic, Black Pepper and Hot Red Pepper Mixture on Broiler Performance, Blood Lipid Profile and Carcass Quality
P2-09	Abbasipour Alireza	The Effect of Dry or Steam Conditioning and Activated Sodium Bentonite on Pellet Quality Indices and Relative Electrical Energy Usage in Broiler Wheat-soy Based Diets
P2-10	Jovanka Lević	Evaluation of the Quality of a Grape Seeds Extract Used as Antioxidant in Layer Feeds Enriched in Omega 3 Polyunsaturated Fatty Acids
P2-11	Saeed Naderinejad	Investigation of Feed Form and Maize Particle Size Interaction on Mineral Digestibility and Intestinal Morphometry in Broilers
P2-12	Soudabeh Moradi	Influence of Physical Form of Prestarter Diet on Performance and Digestive Enzyme Activity in Broiler Chicken During First Week
P2-13	Brand Tertius	The Evaluation of Lupins (<i>Lupinus angustifolius</i>) as Alternative Protein Source in Ostrich Diets
P2-14	Brand Tertius	Effect of Varying Levels of Protein and Amino Acid Concentrations on the Production Parameters of Growing Ostriches
P2-15	Brand Tertius	Determination of Energy, Protein and Amino acid Requirement for Maintenance and Egg Production of Breeding Ostriches
P2-16	Sharideh Hossein	Effect of Feeding Guanidinoacetic Acid and L-arginine on Immune Response in Aged Broiler Breeder Hens
P2-17	Mojtaba Zaghari	Evaluation of Metabolizable Energy Content of Processed Soybean Meal for Broiler Chickens
P2-18	Ergin Ozturk	Effects of Raw Bee Propolis and Water or Ethanol Extract of Propolis on Performance, Immune System and Some Blood Parameters on Broiler Breeders

Slot	Corresp. Author	Title
P2-19	Simona Mattioli	Effect of Dietary Flaxseed Supplementation on Productive Performance and Egg Characteristics of Laying Hens
P2-20	Alice Cartoni Mancinelli	Effect of Maternal Dietary N-3 Fatty Acids Supplementation on Fatty Acid Composition and $\Delta 6$ -Desaturase Activity of Chicks Liver
P2-21	Fathia Ibrir	Effect of Dietary Inclusion of "Phytase" on the performance of Broiler Chickens.
P2-22	Ana Cristina Stradiotti	Velocity of L-Methionine Incorporation into the Liver of Broiler Chickens at the First Week of Age
P2-23	Nasr Javad	Effect of Dietary Omega-3 to Omega-6 Ratio on Performance, Immune Response and Meat Fatty Acids Profile of Broiler Chickens
P2-24	Eljack Badr	Effect of Fish Oil Supplementation on the Performance and Lipids Profile of Broiler Chicks
P2-25	Stanley Omoh Omoikhoje	Nutritive Value of Pigeon Pea (<i>Cajanus cajan</i>) Seeds Soaked in Wood Ash Extract in Broilers diet.
P2-26	Orhan Cemal	Tomato Powder Supplementation Prevents Muscle Lipid Peroxidation in Quails Fed a Diet Enriched with Polyunsaturated Fatty Acids
P2-27	Abd EL-Latif Shaker	Some Physiological Studies in Broiler Chicks as Affected by Using Dried Distillers Grains with Solubles and Avizyme 1500 in their Diets
P2-28	Sahin Nurhan	Effect of Form of Supplemental Chromium on Glucose Transporters and NF-kB Pathway in Broilers
P2-29	Khan Ahrar	Arsenic and Copper Sulphate in Combination Causes Testicular and Serum Biochemical Changes in Adult Male Birds
P2-30	Sahin Kazim	Inhibition of NF-kB by Dietary Phytochemicals in Poultry
P2-31	Nasr Javad	The Impact of Methionine, Lysine and Threonine Levels on Performance and Carcass Characteristics of Male Broilers in Starter Period.
P2-32	Ahmad Shakeel	Use of <i>Citrullus colocynthis</i> Fruit Powder in Replacement to Antibiotic Growth Promoter in Broiler Diets
P2-33	Khan Ahrar	Oxidative Damage Caused by Inorganic Arsenic and its Amelioration with Vitamin E and Bentonite in Broiler Chicks
19h30	24h00	Dinner and show

Monday, October 24th (Port of Marseille)

08h30	10h00	Session VIII	Miscellaneous
		Session Chairperson	Y. Nys
08h30	10h00	Oral Session VIII	Slot: O8
		Slot	Corresp. Author
		Title	
O8-01	Evangelia Sossidou	How Can We Improve birds' Welfare During Transport?	
O8-02	Kittelsen Käthe Elise	Do DOA-Broilers Exhibit the Same Post Mortem Findings as Same Aged Broilers Dead on Farm?	
O8-03	Morgane Salines	A Multidisciplinary Risk Management in French Poultry Slaughterhouses: What Organization in Practice?	
O8-04	Medic Helga	Effect of High Hydrostatic Pressure Freezing and Vacuum Freezing on the Sensory Characteristics of Chicken Meat	
O8-05	Tarerk Khenenou	Normal Morphohistological Studies of the Lymphoid Organs (Bursa of Fabricius, Thymus, Spleen) of Broiler Chickens during Post Hatching Age.	
O8-06	Mousavi Seyed Naser	Effects of Feed Form and Cage Density on Performance and Welfare of Laying Hens	
O8-07	Anwar Haseeb	Efficacy of Protein and Probiotics Supplementation on Dynamics of Endocrine Markers in Serum and Pituitary Gonadotrophs of Molted Layers.	
10h15	10h3015 Min. Coffee Break	
10h30	12h00	Session IX	Poultry Health 2
		Session Chairperson	N. Dagher
10h30	12h00	Oral Session IX	Slot: O9
		Slot	Corresp. Author
		Title	
O9-01	Aslam Asim	Molecular Detection of Viral co-Infections in Broiler Chicken	
O9-02	Nofrarias Espadamala Miquel	The Catalan Slaughterhouse Support Network (SESC): innovative Tool to Help Diagnosing Poultry Lesions at the Slaughterhouse	
O9-03	Raul Moradi	Assessment of Innate Immune Response in the Respiratory Tract of Quails Experimentally Infected with Different Strains of Avian Influenza Virus.	

Slot	Corresp. Author	Title	
09-04	Murtada Muhammad	Evaluation of an Autogenous Vaccine and a Blend of Essential Oils in Control of Velogenic NewCastle Disease Challenge in Broilers	
09-05	Zahid Beenish	Pathogenicity and Immunosuppressive Effect of Different Vaccinal Strains of Infectious Bursal Disease Virus on Lymphoid Organs	
09-06	Muhammad Adil Rasheed	In-vitro Antibacterial and Cytotoxic Evaluation of Sequential Soxhlet Extracts of Calotropis Procera Leaves Against Common Poultry Pathogens.	
12h00	12h30	Diamond sponsor message	The relative value of Methionine Hydroxy-Analogue compared to DL-methionine at different methionine levels in commercial diets
12h30	13h00Lunch break	
13h00	18h30	Afternoon Free (Marseille Visit)	
18h30	19h00	Poster Session III	P3 Poultry Health
		Session Chairperson	E. Sossidou
Slot	Corresp. Author	Title	
P3-01	Daniel Quadrelli	Efficacy in the Control of Eimeria tenella Infection in Broilers	
P3-02	Nadir Alloui	First Case of Hepatic Lipidosis Observed in Broiler Turkey Flocks in Algeria	
P3-03	Rachid Merati	Prevalence and Characterization of Clostridium Perfringens Isolated from Broiler Chickens in Western Algeria	
P3-04	Nagwa Shalaby	Effect of Exoskeleton of Crustacea Extracts and Zinc-Methionine Complex on Performance, Some Hematological, Biochemical, Immunological Parameters and Histopathological Changes in Broiler Chickens	
P3-05	Rodriguez-Sanchez Raquel	Jejunal Histomorphological Changes According to Dietary Fat Consumption in Broiler Chickens	
P3-06	Tahani Al-Surrayai	The Use of Probiotic Suspensions for the Control of Salmonella in Chicken Carcass	
P3-07	Ismail Hanan Ali Ahmed	Efficacy of a Live Escherichia coli Vaccine for Protection of Turkeys Against Homologous and Heterologous Field Strains Infection	
P3-08	Maher Ahmed	Current Study on Avian Influenza in Egypt	

P3-09	Hiba Noudjoud	Footpad Dermatitis in Broilers in Algeria: Current Situation and Future Challenges
P3-10	Abdenmour Nadia	Chicken Infectious Bronchitis in Algeria
P3-11	Khan Rifat	Antiparasitic Effect of Mananoligosaccharide against Experimentally Induced Coccidiosis in Broiler

19h00 19h30 Closing Ceremony

19h30 24h00 Gala dinner and Show

Tuesday, October 25th (Savona)

09h00 Arrival to the port of Savona

The Organizing Committee of the
5th Mediterranean Poultry Summit (Cruise 2016)
wishes to thank
the sponsors of the Conference for their generous support.
